

### ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

ProPak Asia is considered a sustainable event, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased renewable electricity for over 90% of our event.

## Sustainability Partners: Connect the Communities

**Company Name:** GREIF INDUSTRIAL PACKAGING

**Booth No.:** FY383

**Product Name:** As a global manufacturer, our responsibility is to understand and work to minimize our environmental impact. We prioritize sustainability throughout our operations and supply chains, striving to minimize our impact on the environment. Our climate strategy is seamlessly integrated into all aspects of our operations to efficiently reduce emissions and address climate change. We constantly innovate our processes, materials, and manufacturing, working collaboratively to divert packaging from landfills, thus reducing our environmental impact and fostering a circular economy. By embracing diversity in culture, language, location, and perspective, we nurture a diverse and dedicated workforce committed to serving our global customers.
