

### ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

Do you know?

ProPak Asia is considered a sustainable event, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased renewable electricity for over 90% of our event.

## Sustainability Partners: Connect the Communities

**Company Name:** SUNTAR ENVIRONMENTAL TECHNOLOGY PTE LTD

**Booth No.:** FY573

**Product Name:** The company prioritizes ESG, equating it with core functions like R&D and sales, and views it as crucial for sustainable growth. It focuses on balancing stakeholder interests, protecting rights, and promoting environmental responsibility by integrating green practices into its strategy. The firm emphasizes corporate social responsibility, continually engaging in community activities and ensuring drinking water safety awareness. Robust corporate governance structures are in place, with adherence to development philosophy of preventing pollution, reducing waste, conserving energy, and operating a practical green business. Future initiatives include adhering to stringent ESG practices, fostering sustainable development, and contributing positively to the society.
