

ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

ProPak Asia is considered a sustainable event, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased renewable electricity for over 90% of our event.

Sustainability Partners: Connect the Communities

Company Name: Tesa tape Thailand Limited

Booth No.: FY253

Product Name: At tesa, we want to make a positive contribution towards meeting global environmental challenges. Sustainability – economic, ecological, and social – is a central pillar of our corporate strategy.

Our path to being more sustainable includes the reduction of emissions, responsible sourcing, the use of recycled and bio-based materials, circularity, and the reduction of waste.

This is what we have achieved so far. 100% of electricity comes from renewable energies. 27% absolute reduction of energy-related CO2 emissions, 54% of direct purchasing volume with EcoVadis. etc.
